# Furniture for exploration, play, learning and growth...

At Jonti-Craft, we specialize in designing and crafting furniture for children. From the time they enter their first care or pre-school environment throughout their elementary and middle school experiences, learners thrive when they're safe, comfortable and engaged. Our furniture helps you create just the right spaces for student success.

Jonti-Craft is an independent family company and nearly all of our products are made right here in the USA. Our team of Designers, Craftspeople, Customer Relations, Sales and Logistics Specialists all focus on keeping pace with education's evolving needs, while making sure that every product we produce is made to last.

**Caring is Our Priority.** We design and manufacture products that support environmentally safe spaces and contribute to healthier indoor air quality by meeting several key industry certifications, including:

- Consumer Products Safety Improvement Act (CPSIA)
- California Air Resource Board (CARB) II
- GREENGUARD Gold (designed specifically for children's environments)

**We Respect the Environment.** We choose suppliers that incorporate forestry management plans and we were the first educational furniture company to reduce cardboard waste in our box-making systems. Plus, we recycle nearly 100% of our waste.

**We Innovate Continually.** From furniture that supports STEM, STEAM and technology to solutions that provide real flexibility and modularity, we help educators optimize their spaces and energize learning.

**Lasting Quality that's Guaranteed.** Products that last...that's our commitment to you. Many of our products include a Limited Lifetime warranty to save you money year after year.
