

# LEARNING FURNITURE FOR TODAY'S GROWING CHILDREN

TOTMATE.com ~ 800.350.3270

# What's in a name? With Tot Mate®, *the name says it all!*

Friendly, functional furniture for education environments and decades of experience manufacturing for the education sector.

Rounded edges, clean lines, durable surfaces – all add up to a smart choice.

Furnish classrooms with ideal solutions for supply storage, lockers, changing furniture, vanities, tables and chairs, toy and book storage.

Why wait?

- Assembled units ship in 5 business days.
- Ready-To-Assemble (RTA) units ship in 2 business days.

For the safety of children, units must be securely attached to building structure with anchoring devices of appropriate type, size and quantity, in accordance with applicable codes and accepted installation practices.

# WHY TOT MATE®?

## Wide Variety of Furniture Solutions

- (107) SKUs ship in 2 business days
- (105) SKUs ship in 5 business days

## Tough ~ Durable ~ Cleanable

- Excellent Cleanability Properties  
From general cleaning to germ killing disinfectant cleaning = supporting a healthy environment.
- Tough / Durable  
Superior structural and material integrity = built to last. Means bumps and dings from enthusiastic play won't leave furniture looking worn – Impressive "Like-New" LifeCycle.  
Enduring, non-porous surfaces resist stains and spills.

## WHY RTA?

Ready-To-Assemble (RTA) equals Ready-To-Save!

Choosing RTA furniture may translate to savings on shipping costs. RTA units require a small amount of simple assembly and no special tools. Most pieces can be assembled in fewer than 20 minutes. We provide clear, concise instructions to take the worry out of work!

Of course, if you are all thumbs, Tot Mate® has you covered – for most products, fully assembled units are available in five business days.

# CHANGING FURNITURE

Laminate Construction

Tough ~ Durable ~ Cleanable

From the youngest infants to toddlers in training, Tot Mate® changing furniture is ideal for busy classrooms.

Changing tables have easily accessible storage, durable surfaces with safely rounded edges and lockable doors. Optional sinks and roll out stairs. Wall hung storage keeps supplies close to teachers but away from curious little hands.

Maple/Maple

Royal Blue/Maple

Changing table pad (TM8311R) and replacement rolls of changing table paper (TM8331R) available separately (see p.24).

Changing tables are shipped in a palletized crate to help ensure safe travel and minimize the possibility of freight damage. Only basic tools are needed for crate disassembly.

4

## INFANT CHANGING TABLE

- 47W x 37-1/2H x 23-1/2D
- Lockable storage cabinet base with fixed shelf assembly and space for trash receptacle (*not included*)
- Easy clean, 1-piece molded top, 7" deep well
- Roll paper dispenser, roll of changing paper

# VANITIES

Laminate Construction

Tough ~ Durable ~ Cleanable

Encourage good hygiene habits for young learners with Vanities and sinks that are just their size! Available as floor standing or wall hung units, with single or double sinks.

Durable laminate surfaces resist spots and stains; cleaning up is easy.

Cultured marble tops are non-porous, making them easy-to-clean, extremely tough and resistant to stains, mildew and chips.

Maple/  
Maple

Royal Blue/  
Maple

Vanities are not self-contained units. Plumbing connections required for sink use. See TOTMATE.com for installation details.  
Must be securely attached to building structure.

### SINGLE WALL VANITY

- 31W x 21-1/2H x 21D
- Cultured marble top with integral sink, grid strainer and ADA tailpiece
- Chrome finish faucet/handles
- Mount at appropriate height for age group
- Removable front access panel
- Overflow safety feature

### DOUBLE WALL VANITY

- 49W x 21-1/2H x 21D
- Cultured marble top with 2 integral sinks, grid strainers and ADA tailpieces
- 2 chrome finish faucets/handles
- Mount at appropriate height for age group
- Removable front access panel
- Overflow safety feature

## What is the correct table height?

In general, the table surface should be approximately 8" above the height of the chair seat. This provides sufficient leg space under the table while encouraging good posture.

### HEAVY DUTY TOPS

Premium 1" thick laminate table tops provide a solid, durable surface for a multitude of activities. Rounded corners with wraparound protective banding eliminate sharp edges.

### STABLE LEG DESIGN

Wide positioning of legs creates a super stable base for tables.

## What is the correct chair height?

Age is not always a good basis for appropriate chair height. A better method is to ensure that children's feet are flat on the floor when they are sitting back in the chair.

### DURABLE CHAIR END PANELS

Chair end panels of lightweight, high density polyethylene textured plastic will not chip, crack or peel and are impervious to water.

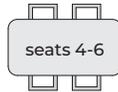

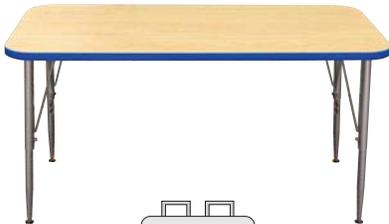

14" to 23"

21" to 30"

### TABLE HEIGHT RANGES

Adjustable legs provide two table height ranges:

- 14" to 23"
- 21" to 30"

### RECTANGULAR TABLE

- 48W x 24D rectangular 1"-thick top with room for 4-6 children
- Adjustable height legs with levelers

# CHANGING FURNITURE

Plywood Construction

Well-equipped changing stations for infants and toddlers in Baltic Birch Plywood.

Sturdy molded tops, lockable doors and diaper wall storage will make diaper duty a snap!

Changing table pad (TM8311R) and replacement rolls of changing table paper (TM8331R) available separately (see p.24).

*Changing tables are shipped in a palletized crate to help ensure safe travel and minimize the possibility of freight damage. Only basic tools are needed for crate disassembly.*

## DIAPER WALL STORAGE

- 46W x 22-1/2H x 12D
- 3 lower compartments with 5 removable dividers (create up to 8 diaper cubbies)
- 2 upper compartments (21-7/8W x 9-3/4H x 10-3/8D)
- Must be securely attached to building structure

# PRODUCT FEATURES

## LAMINATE CONSTRUCTION PAGES 4-22

THERMALLY FUSED LAMINATE SURFACES  
 RECYCLED & RECLAIMED CORE MATERIALS  
 MAPLE WOODGRAIN WITH MAPLE OR ROYAL BLUE ACCENTS

### SUPERIOR STRENGTH

Using modern manufacturing technology, 3/4"-thick material, precision dowel pin structural joinery, deep thread connectors and predrilled holes provide easy assembly with superior holding power.

### HIGH IMPACT EDGES

All edges and corners are high impact resistant, solid PVC banding material.

### EASY-TO-CLEAN

Tough laminate surfaces resist stains and spills, making clean-up quick and easy.

### NO SHARP CORNERS

Side panels and table tops feature rounded corners with wraparound protective edge to eliminate sharp corners and panel edges.

### HIGH QUALITY HARDWARE

Bentwire pulls and double coat hooks in durable powder coated nickel finish. Dead bolt locks for added security.

25

## PLYWOOD CONSTRUCTION PAGE 23

11-PLY BALTIC BIRCH PLYWOOD  
 FINISHED IN NATURAL BIRCH COLORATION

### CHILD FRIENDLY SURFACES

Easy-to-clean, durable UV cured surfaces. Quickly wipe away sticky fingerprints and germs.

### NO SHARP CORNERS

Radiused edges eliminate sharp corners.

### SUPERIOR STRENGTH

Using modern manufacturing technology, 5/8"-thick material and integrated dowel pin construction provide exceptional joint strength.

# FURNITURE CARE & MAINTENANCE

## Q: *How should I routinely clean and care for Tot Mate® products?*

### Laminate Construction

Cleaning surfaces is a breeze with the durable materials used in our Tot Mate® furniture. Clean surfaces using a damp cloth and mild soap. Tougher stains such as paints and markers can be removed using a mild household cleanser and soft bristled brush. Certain chemicals may damage the furniture surface; please review our list of cleaners to avoid.

### Plywood Construction

Furniture made with Tot Mate® Baltic Birch Plywood can be cleaned with a soft lint-free cloth and a silicone-free furniture cleaner specifically formulated for wood. Avoid using abrasive cleansers, bleach solutions or household cleansers not intended for wood surfaces. Do not allow liquid to pool and remain standing. Quickly wipe away moisture to ensure long-lasting performance of your furniture. Please review our list of cleaners to avoid.

## Q: *How can I disinfect Tot Mate® products?*

### Laminate Construction

A solution made from a ratio of 10% bleach / 90% water can be used routinely to disinfect laminate surfaces or remove stubborn stains and marks. Apply the solution then wipe the surface dry. Bleach full strength can damage the surface if left on for more than 20 minutes.

**WARNING:** *Never leave the bleach bottle with a wet bottom sitting on the plastic. The full-strength container used to make the solution should be stored in a locked cabinet interior with a dry bottom, away from children.*

## Q: *What products should I avoid using on my Tot Mate® furniture?*

### Laminate Construction

### Plywood Construction

Acidic or abrasive cleansers can damage surfaces. Do not use them on laminate or plywood.

Steel wool and other abrasive pads will damage laminate and plywood. Do not use them to clean Tot Mate® products, and do not store steel wool pads directly on surfaces. The metal can rust and leave stains.

Rust removers, drain cleaners and toilet bowl cleaners contain harsh chemicals that can quickly cause permanent damage. If a spill occurs, wipe off all residue immediately, wash thoroughly with soapy water and rinse several times.

For plywood, avoid the use of paste wax and polishes that contain silicone. The wax buildup is difficult to remove and will leave a residue that attracts dust.

**WARNING:** *Do not use products containing these chemicals: hydrochloric acid, sulfuric acid, hydrofluoric acid, phosphoric acid, sodium hydroxide or products with rust remover or lye.*

# MOLDED CHANGING TABLE TOP CARE & MAINTENANCE

## **Q: How should I clean my molded changing table top?**

Your changing table top may be cleaned with warm water and mild soap and cleaners, such as those used for hands, dishes or general-purpose cleaning.

For more aggressive cleaning, a gentle abrasive cleaner applied with a soft cloth may be used.

**WARNING: Do not use cleaners containing acetone, acids, alkalis, sodium hydroxide, rust removing chemicals, toilet bowl cleaning chemicals, D-Limonene or Linalool. D-Limonene and/or Linalool are ingredients in citrus-based cleansers and may harm plastic surfaces.**

*Exercise extreme caution using any drain cleaners, as they may damage the changing table top. Make sure the drain cleaning agent goes down the drain outlet and does not sit in the basin of the sink, if the top is so equipped, for minimal exposure time.*

*Never pour boiling water directly into the basin.*

*Do not use the basin to hold ice for extended periods of time.*

## **Q: How can I disinfect my molded changing table top?**

A solution made from a ratio of 10% bleach / 90% water can be used routinely to disinfect plastic tops. Apply the solution then wipe the surface dry. Bleach full strength can damage the surface if left on for more than 20 minutes.

**WARNING: Never leave the bleach bottle with a wet bottom sitting on the plastic. The full-strength container used to make the solution should be stored in a locked cabinet interior with a dry bottom, away from children.**

## **Q: How should I clean the surface if harsh chemicals come in contact?**

Immediately wash the surface with a liberal amount of water, then wipe and dry it with soft wipe materials to ensure the chemical has dissipated. Use proper precautions and safety measures to avoid personal injury. Repeat the steps if unsure whether the chemical has been fully cleaned from the surface.

# ENVIRONMENTAL & SUSTAINABLE ATTRIBUTES

Stevens Industries, Inc., the manufacturer of Tot Mate®, is committed to environmental/sustainable responsibility. From our well-informed choice of materials to our state-of-the-art manufacturing, Tot Mate's final products are assured to be safe and environmentally friendly. Attributes include but are not limited to:

## Architectural Woodwork Institute (AWI):

Architectural Woodwork Institute (AWI) was established in 1954 for producers of custom millwork. Since its inception, the group has dedicated its resources to improving architectural woodwork industry standards through education and collaborative efforts by its members. AWI members offer customers the added assurance that the manufacturer is knowledgeable of, and adheres to, the industry's high standards. We're proud to be a long-standing AWI member. [www.awinet.org](http://www.awinet.org)

The Architectural Woodwork Institute Quality Certification Program (AWI QCP) has been available since 1995. This program has been recognized by architects, designers and specifiers as the authoritative source of guidance on fine architectural woodwork. It offers an increased level of consumer protection in architectural woodwork sections of construction documents and allows designers and specifiers to include a total quality management mechanism for woodwork in project documents. [www.awiqcp.org](http://www.awiqcp.org)

## UL GREENGUARD Certification:

Stevens Industries, Inc. is proud to be one of the few casework, millwork and panel laminators to have achieved GREENGUARD Gold Certification for our products. Our high-quality laminated products meet stringent chemical emissions limits. GREENGUARD Gold Certification (formerly known as GREENGUARD Children & Schools Certification) includes health based criteria for additional chemicals and also requires lower total VOC emissions levels to ensure that products are acceptable for use in environments such as schools and healthcare, to account for sensitive individuals (such as children and the elderly). It is referenced by both The Collaborative for High Performance Schools (CHPS) and the Leadership in Energy and Environmental Design (LEED) Building Rating System. For a complete list of our UL GREENGUARD Certified products groups, visit: [www.ul.com/gg](http://www.ul.com/gg) Additionally, to see all of our GREENGUARD Certified products, visit: [www.spot.ul.com](http://www.spot.ul.com)

## Forest Stewardship Council (FSC):

FSC® (Forest Stewardship Council®) certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. FSC Trademark License Code: FSC-C014934. Ask us about our FSC products! [www.fsc.org](http://www.fsc.org)

## American Institute of Architects (AIA):

Since its inception in 1857, the American Institute of Architects (AIA) has served as a resource for members and a voice of the industry. The AIA sponsors continuing education for those in the field, sets industry standards in contract documentation, and conducts market research and analysis. AIA celebrates the artistic designs of its members and recognizes their work through an awards program. [www.aia.org](http://www.aia.org)

## American Society for Quality (ASQ):

American Society for Quality (ASQ) is the world's leading membership organization devoted to quality. When ASQ says "quality" they mean best practices, continuous improvement, and tapping the full power of knowledge. [www.asq.org](http://www.asq.org)

## Construction Specifications Institute (CSI):

Construction Specifications Institute (CSI) is a national association of specifiers, architects, engineers, contractors, building materials suppliers and others involved in commercial and institutional building design and construction. The organization has 145 chapters and more than 16,000 members. CSI provides technical information and products, continuing education, professional conferences, and product shows to enhance communication among all disciplines of building design and construction, and to meet the industry's need for a common system of organizing and presenting construction information. [www.csinet.org](http://www.csinet.org)

## National Association for the Education of Young Children (NAEYC):

The National Association for the Education of Young Children (NAEYC) is dedicated to improving the well-being of all young children, with particular focus on the quality of educational and developmental services for all children from birth through age 8. NAEYC is committed to becoming an increasingly high performing and inclusive organization. [www.naeyc.org](http://www.naeyc.org)

**Stevens Industries, Inc. is compliant with the <90ppm lead content standard under the Consumer Product Safety Improvement Act (CPSIA).**

**Stevens Tot Mate® products are in compliance with the latest U.S. - EPA - Toxic Substances Control Act (TSCA) - Title VI for formaldehyde emissions.**

**Complies with California's Prop 65.**
