

# INDOOR/OUTDOOR PLAY

fun in  
the sun

**I**t's excruciating to be trapped indoors when it's sunny. Sooner or later, almost every child is forced to sit through an afternoon of lessons when all they really want to do is run outside and play. Why not indulge them? Children's Factory produces a variety of "Fun in the Sun" options so parents and caregivers feel confident their children are continuing to grow and learn - even when lessons are conducted outdoors.

Sand & Water Table FEATURES

- Durable plastic tubs allow kids to experiment with sand, water, Kidfetti® and more at just the right height.
- Adding play accessories such as spoons, rakes and buckets will help kids practice fine motor skills and hand-eye coordination.
- Sensory play is also found to support cognitive growth, problem solving skills and social interaction.
- Assembly required
- Messy mats available to protect indoor floors – sold separately on page 191.

Small Blue Sensory Table

- 1130 18”h Table
- 1131 Small Lid

# MANUAL DEXTERITY

taking  
OFF the  
mittens

**I**magine your life depended on your ability to place a fishing lure on a hook, so you could catch a fish for dinner. Now imagine you had to do it with thick mittens on your hands. Dexterity and other fine motor skills are incredibly important for kids to master. Children's Factory produces the tools youngsters need to effectively "take the mittens off" as they develop and grow.
